Chromebook

FIS has a Bring Your Own Device (BYOD) policy. We encourage students to bring their own device to school for the purpose of learning. FIS continues to find ways to integrate digital technologies into teaching and learning and BYOD assists us to enable anytime, anywhere access to enhance teaching, learning, collaboration and communication. Our BYOD initiative is not compulsory for students but gives those that bring the advantage of using a familiar, known device at home and at school. FIS is committed to providing access to Information and Communication Technology (ICT) to all students on a shared basis.

A Chromebook is preferred but any laptop is great. Example of a Chromebook - prices are subject to change.
